Substance: Mill scale (ferrous metal)

Dear Members of the SIEF for Mill Scale [Einecs number 266-007-8, CAS number 65996-74-9]:

Further to our email of May 22nd 2010, we are pleased to advise that the Joint Submission for Mill Scale has been created by the Lead Registrant. As mentioned in our previous email, there is a guidance document on [Joining the Joint Submission](#) on the Iron Platform website. There is also a document entitled [Q&A about joining the Joint Submission](#). Members of the Iron Platform have already received the information needed to join the Mill Scale Joint Submission [i.e. the joint submission name and token]. Other members of the Mill Scale SIEF will need to purchase a Letter of Access to the Mill Scale dossier in order to receive this information.

Details of the Letter of Access can be found on the [Letter of Access page](#) on the Iron Platform website - the Letter of Access agreement, the [fee scale](#) and guidance on [calculation of tonnage of Fe-contained](#). Please read this information carefully before submitting your application. A link to the Letter of Access purchase portal can be found on the [Letter of Access page](#). A Letter of Access has to be purchased separately for each legal entity [or company represented in the case of an Only Representative].

We urge non-consortium members to purchase their Letters of Access and join the Joint Submission for Mill Scale as soon as possible. The current token has validity until July 13th 2010.

We thank you in advance for your co-operation and will be happy to answer any questions that you may have.

Jean-Paul Lorrain and Guilhem Dollé, ArcelorMittal
Chris Barrington, Iron Platform Secretariat
