Subject: New attachments for iron LOA's
Attachments: GuidanceOfSafeUse_IronCompounds_2013.xls; CSR_Iron_Joint_version2final_20131219.pdf

Dear Letter of Access purchasers:

The Lead Registrant for Iron, ArcelorMittal, has updated the iron dossier as follows:

- Two new forms of iron have been added: “reduced iron catalysts” (*new type of iron, including new composition, classification, manufacturing process, uses, physico-chemical data, Guidance on Safe Use*) and “elemental iron in hydrogen-reduced powder” (*this alloyed powder falls under the ‘elemental iron’ composition and associated non-classification. Only specific use and manufacturing process were added.*)
- Some new uses, notably in the catalyst sector and for elemental iron in alloys, have been added
- The dossier has been modified to the IUCLID 5.4 format

Those involved with the two new forms of iron will of course need to add these to their dossiers. As far as uses are concerned, unless you have changed your uses, no action is needed. If you have changed the uses of your substance, you will need to update your dossier accordingly. An updated document covering the uses of iron has been posted in the SIEF members area of our website, on the Iron SIEF documents page - see <http://www.iron-consortium.org/documents.html>. This document has been posted in two forms, one showing the changes from the previous version highlighted in yellow, the other a clean version.

Also posted on the same web page is an updated document describing manufacturing processes for the various forms of iron.

Attached to this email are the updated Chemical Safety Report and Guidance for Safe Use.

An updated guidance document on the completion of sections 1 and 3 of the IUCLID dossier version 5.4 can be found on the [guidance page](#) of our website and updated i5z substance and section 3.5 files can be found on the linked page [IUCLID files for download](#).

For most Iron registrants, no action is needed! However, please do not hesitate to get in touch if you have any questions.

Best wishes

Abi Hart
